BICENTENNIAL SPIRIT

Our country will be 200 years old on July 4, 1976, but will the spirit of America be 200 years old? Our country has existed through the war of Independence, the Civil War, and two major World Wars, to mention only a few, but, we wonder if the citizens of America really believe in our democracy any more. We fought for our independence to be a united republic; but, through the years, everyone has gotten so involved in his own selfrighteousness that he wants his own needs fulfilled without the thought of anyone else. Not all Americans are this way. We are just mentioning that the true spirit of America is not as strong today as it has been in the past, and that this point alone could lead to the fall of our democracy.

The United States has always been a symbol of freedom to all the other Nations. In no other country is there freedom of speech, thought, and action so completely as in this country. Many Americans take freedom for granted without a thought of how lucky we are as a people. If we were forced to go to another country, maybe we would not be as quick to say how unfortunate and unlucky we are in America. If the people from another country were given the opportunity and freedom of Americans, perhaps they would show us how to appreciate what we have. It is time for the American people to try to see the things that are right in America rather than to continue complaining and grumbling about all the annoyances that occur in common day life.

Our country has been going through turbulent times in recent years. It is up to us, the Americans, to help our country recover from them. The young people of today are faced with many responsibilities; for, they will be the leaders of the future. The problems of today should be prominent in our minds. All of us should take a greater interest in our country. We should take part in political campaigns, express opinions about government, and study and read all the information that can be found about our country.

The people of West Virginia have always been known for their spirit. Everyone across the nation has heard that the people of West Virginia really care about other people. They might kid us by saying that we all come from the hills or that all of our "ya'll's", "fers", and "pokes" are funny, but they

know we are a strong people. We may not be as strong as other states in showing political views, but we do care who serves in our state.

It is up to the young people of this state to keep it strong. We should try to make our government even stronger. Many times people from other states criticize our state's government. We should make our state's government so strong and free from corruption that criticism can only be light. In order for us to keep up the spirit of our state, we will have to believe in it; for, our state has valuable resources, beautiful country-sides, and warm affectionate people. If we are willing to show our state to other people, they will at last look at West Virginia and admit how great it is.

Our state is supporting many activities that salute our country's bicentennial. One of the projects that the women's clubs of our state are sponsoring is the making and dressing of dolls which resemble all of the First Ladies of our state in their inaugural ball dresses. Another one of their projects is the publishing of a book called WEST VIRGINIA, U.S.A.

Our community is an area that needs an uplift in spirit for our country. Very few people even go to the polls in our community. Not only are the people of this community not interested in governmental affairs, but it seems the people are not interested in anything. The young people of this community need to rejuvenate the spirit of their elders.

Our area organizations are urging everyone to plant red, white, and blue flowers. In Charlton Heights, the fire hydrants are to be painted red, white, and blue.

Religion is something for which we can thank our country. The United States was founded on freedom of religion, and we have always enjoyed this great opportunity. All Americans should be thankful that our country is based on religion and should pray that it will continue as such.

The only disappointment about the bicentennial is that it took the bicentennial to make everyone think about America again. Let us hope that the spirit of America does not have to be awakened again. Hopefully, it will not take another birthday to revive our spirit for such a great country.

FROM A HUMBLE BEGINNING .

From its humble beginning in a pool room in the fall of 1925, Gauley Bridge High School has come a long way. The people of the Falls District were then convinced that an institution of higher learning was needed for the welfare of its youth. In the quarters provided, a class of 57 freshmen formed the nucleus of what was to be a first-class high school. The additional three classes were made available with a new building and adequate facilities in 1927.

Clubs were organized in order to carry out various projects. Social events were added to spice the regular routine, and a real school atmosphere was created. Basketball and baseball were introduced, and football had its inception in 1927.

What had been the high school became the grade school in 1940 with the construction of a new building. An addition to this building was built in 1951 to provide for expansion of the school. Together with the annex and the band hall, this comprises G.B.H.S. today.

Since 1936, G.B.H.S. has been a member of the North Central Association of Secondary Schools and Colleges, the largest accrediting organization in the nation. Our school record speaks for itself and has held a first class rating from the beginning.

Throughout the past 50 years, Gauley Bridge High School has seen approximately 3365 students graduate. She has had 10 principals and many more teachers. Hopes and dreams have thrived here and plans for the future have been completed. Gauley High will receive a new look in the next few years. No one knows what will happen in the next half century, but surely the spirit of Gauley Bridge High School will always prevail.

COMES AN INSTITUTION OF LEARNING

G.B.H.S. in 1926-27.

OUR FIRST GRADUATE

The first class of Gauley Bridge High School was enrolled on September 14, 1925; however, there were no graduates until the spring of 1927. Miss Lalla J. Cavendish was the first graduate of Gauley Bridge High. She was quite active in various clubs and other extra-curricular activities. In keeping with the theme of our golden anniversary, we are recognizing Miss Cavendish, who is now residing in South Charleston, W. Va., as the first graduate of our high school.

ATHLETICS

TRAVELLER FOOTBALL '75

The 1975 football season began on a different note than in past years. The team defeated Ansted for the first time in Coach Mike Morrison's career at G.B.H.S. The team came home for its next game and ran the fight out of the Nuttall Generals by rushing over 300 yards. The Travellers then went to Webster County and lost a heartbreaker. After this hard fought battle, the Travellers fell into a huge slump, dropping its next five games to Richwood, Summersville, Fayetteville, Montgomery, and Sophia. Even though the Travellers were down, they came back with the aid of cheering parents to pull out a victory over Clay on Parents Day. The following Friday, the Travellers got the homecoming spirit and finished the season on a winning note with a victory over Clearfork. Even though the Travellers finished a bad season record wise, 4 wins and 6 losses, they had a successful season with close friendships made and an abundance of team work.

FRESHMEN ARE "CHAMPS" AGAIN

Greg Ballard

Under the leadership of coaches Louis Fish and Greg Ballard, the Gauley Bridge Junior High was guided to an undefeated season and captured the Fayette County Championship. The team had some close calls, but they came through unscathed. The hard work and achievement these young men put into the team and their reward at the finish of the season - the Fayette County Trophy - proves that their desire to be #1 has paid in full.

GAUNEKA AND HOOFPRIENTS STAFFS COMBINE FOR FIRST YEAR

Working under the supervision of Mrs. Vencill, members of the GAUNEKA and HOOFPRIENTS Staffs publish the yearbook and newspaper.

Working on the yearbook is a trying time for those who must meet the deadlines set by the publishers. It is a difficult job and much hard work and cooperation is necessary by not only the staff, but also the faculty and administration.

The journalism class publishes a monthly newspaper HOOFPRIENTS, to inform the students of G.B.H.S. of the activities evolving around them at school and the important issues of the school which are relevant to them. Its staff members learn the basic skills involved in a newspaper and trains them for a career in the publishing field.

We, the editors of the 1976 Gauneka would like to personally thank a few people for their special effort to help us with the yearbook. These special people include: Christy Moschino, who was always willing to help us at a moment's notice, Billy White, who gave us some of the best football pictures we have ever had, and Karen Floyd, who came to the school at night to help us with the typing. We would also like to thank our Journalism Class, and those Juniors that helped us. We find it difficult to thank those extra special people, our photographers, who were always so eager to give and to develop our pictures. We may have had a few difficult arguments, but we have known all along that we got great pictures, so, Thank-You. This yearbook would not be complete if we did not tell everyone about our great sponsor. Mrs. Vencill was more devoted to this yearbook than we were. She gave her time, effort, and talents to the fullest extent. We thank you, Mrs. Vencill, most of all.

We the editors of HoofPrints would like to thank the staff for all its hard work. Special thanks goes to Mrs. Vencill for the time, patience, and effort which makes the paper possible. We do acknowledge our appreciation for Libby Oliver, our carrier, who is our delivery girl to and from the publisher.

G.B.H.S. STUDENTS WILL ALWAYS REMEMBER A FORMER CLASSMATE

As we all proceed through life, we find many tragedies occurring. The biggest question that comes to everyone's mind is - Why? With Kenny, everyone asked that question. How could a fellow classmate, who was loved by all, be taken away so easily? Everyone's heart was saddened because of this tragedy. It is so easy to remember Kenny and all the happy times he brought to G.B.H.S. That was the kind of person he was. No matter where, he brought out the brighter side of things with his smile and warm personality. He will never be forgotten at G.B.H.S. because we still have all the memories he has left behind.

On March 1, 1957, Kenneth Laird Toney was born into a world about which he knew nothing. As the days and months pass, Kenny grew and matured into a tender, loving human being. He was loved by all who knew him. As a student of G.B.H.S., Kenny was typical. His favorite place during class was in the gym. and at break and noon it was at Opal's. In June 1975 Kenny very happily graduated, but deep down he was sorry to have to leave. Two months later on August 5, 1975, tragedy struck, taking our beloved Kenny away. No more will we see his smiling face, or his happy laughter ringing around us, but we will always feel his presence in our heart and soul.
